

## **Biography Wardt van der Harst / Re-Ward**

Born Christmas 1988, Wardt van der Harst is a youngster inspired by one of the legends of today's trance scene, Tiesto. He was 12 when he heard 'Flight 643'. That moment was the moment he decided to save money for dj gear. Later on he bought software to produce music in that style. Like the most producers he began with some old tracker software, moved up to Fruityloops and he's now using Reason as most important tool to make his music with.

At the age of 16 he had his first release, but his career got an immense boost when Ensure/Exposé got signed by Black Hole... He knew he was on the right pad, certainly when his second EP got signed by Sander van Doorn's own imprint Doorn Records, which is a sub label from Spinnin Records.

That is not all, further tracks are signed to Armada under another project called 'W&W – Mustang' . And so is his new EP called 'Guess What?!' signed to Black Hole again.

On the remix side of things then, after some small projects he was asked to remix Progression's new track 'Different Day Different Light' for Black Hole Recordings.

Also the new Sander van Doorn single 'The Bass' is being remixed by Re-Ward as we speak !

There shines a bright future for Mr Re-Ward, with all his tracks getting major support by Tiësto, Armin van Buuren, Paul van Dyk, Above & Beyond, Markus Schulz, Rank 1, Eddie Halliwell, Sander van Doorn, Cosmic Gate, to name a few !

## Discography :
